---

As a B.tech Graduate, I would really describe myself as a person with a versatile skill-set, a lot of integrity and a willingness to go extra mile to complete my task. With a proven record of measurable, quantified, relevant achievements, my goal is to leverage my skills and knowledge to deliver my learning and to succeed within your organization.

## **EXPERIENCE:-**

OCT-18 TO JAN-19

### **BUSINESS ANALYST-INTERN, INWARA-GLOBAL**

- As Business analyst-company researcher I have to make a report on the companies who dealt in Crypto-currency, design a road-map for it.
- Conducting the primary and secondary research about companies, prepare a report on their investments risks.
- Doing SWOT analysis and writing Hypothesis.
- Used both qualitative and quantitative analysis techniques frequently.

## **EDUCATION:-**

AUG'2014 – MAY 2018

### **B.TECH, TECHNO INDIA UNIVERSITY**

- Graduated with 6.9 CGPA
- Specialized in computer science.
- A member of the TED X college ambassador.
- Have Performed in Literature event held at Kolkata.
- Member of Cultural program.

MAY 2014

### **HIGHER SECONDARY, SUBHASH PUBLIC SCHOOL**

- Graduated with 65 %
- Elected Captain of School Cricket Team

## **TECHNICAL SKILLS:-**

- HTML & CSS
- JAVASCRIPT
- REACT.js
- BOOTSTRAP 4
- SQL
- MICROSOFT OFFICE

## **PROJECTS:-**

- **React website:** - I have created a webpage in REACT, which displays a list of movies obtained from OMDB API. In this project, the posters of the movies as well as the year of release are also shown. (Available on Github account)
- **Simple website using HTML, CSS, JAVASCRIPT:** - Well, it's just a simple UI. By clicking on "home" button, you can visit my LinkedIn profile. By clicking "My work" button you can visit my Github account. By clicking "About us" you can visit my Instagram page. (Available on my Github account).
- **A simple front-webpage using BOOTSTRAP 4:-** This was a basic project on Bootstrap. In this project I have created a complete website using bootstrap 4 classes and No CSS. Which is the most popular HTML, CSS, and JavaScript framework for developing responsive, mobile-first websites.(Available on Github account)
- **Simple UI design using HTML, CSS:-** Well, it's just a single and simple UI page of a café-cake house.(Available on my Github account)
- **Temperature Converter using JavaScript:** - After learning JavaScript, this was the first project that I made. In this project a person can convert the temperature from Fahrenheit to Celsius. (Available on my Github account).
- **Basic 2-D snake game using PYTHON:** - In our childhood there was a snake game in our "NOKIA" phone. While I was learning python, I developed this very basic 2-D game compatible in laptops and PCs.
- **Tourism Management System in 8th semester:** - The objective of the project was to develop integrated online web-based software for tour operating companies. It automates the processes and activities of a travel and tourism agency to manage their customers and hotels.
- **Security Laser System in 7th semester:** - The goal of this project is to utilize the aftermarket parts and build an integrated security system. This software will help the users alert in case of theft.

## **PERSONAL SKILLS:-**
